SKILLS

JavaScript / TypeScript(ES6+), React, Angular, HTML, CSS, SASS, Node.js, Express, Git, Firebase

EXPERIENCE

JUNE 2016 - AUGUST 2021

Kroger - *Customer Service Representative*

- Ensured superior customer experience by addressing customer concerns, expressing empathy, and resolving problems on the spot.
- Assigned employees to specific duties and maintained financial accounts by administering, retrieving, and depositing cash drawers when needed.

PROJECTS

DECEMBER 2021

Portfolio Site - <https://tysonpoulton.github.io/>

- Built a personal portfolio site to showcase my skills in projects in one accessible place.
- Used React for front-end UI and utilized React hooks multiple times for cleaner code.
- Utilized npm libraries and packages to create an animated background as well as smooth animations, enhancing the UI and UX.
- Simplified CSS using the TailwindCSS framework and SASS for responsive design.

OCTOBER 2021

Fireside Chat - <https://tysonpoulton.github.io/fireside-chat/>

- Created a fullstack chatroom messaging app where users can login with Google and communicate.
- Front end built with React and styled using CSS, and queried Firebase database to store, load, and display messages.

NOVEMBER 2021

Lyrify - <https://github.com/tysonpoulton/lyrify>

- Developed a Spotify clone using Spotify's Web API that also displays the lyrics to each song the user plays.
- Used React and Bootstrap for a responsive UI which made GET/POST requests to the backend, which was built using Node.js and Express.
